

# mechanics of growth

write a wikipedia article about the **mechanics of growth** [mə'kæɪ.nɪks ɑ:v groʊθ] about one page long. you may use taber's 1995 paper but any other sources are welcome (please cite). you can work in groups of two. at the end of this course, you will revise your article to see how your knowledge about growth has increased. finally, the class will decide which one to post on <http://www.wikipedia.org/>

Taber „Biomechanics of growth, remodeling and morphogenesis“ [1995]
